📍 No.20/2 A, Ihala Yatawara, Wattegama

ABOUT ME

Detail-oriented IT undergraduate with a strong academic foundation in software engineering, artificial intelligence, and machine learning. Proficient in programming fundamentals, system security principles, and modern computing technologies. Actively seeking an internship to gain hands-on experience, contribute to secure system design, and develop industry-aligned technical skills.

EDUCATION

BSc. Information Technology

Rajarata University of Sri Lanka - 02/2023-present

AAT Finalist

AAT Sri Lanka- 06/2022

PROJECT

Mango Ripeness Classification & Health Recommendation System (03/2026)

- Developed an end-to-end machine learning system to classify mango ripeness (Raw vs Ripe) using numerical sensor, spectral, and chemical data.
- Implemented and compared models including 1D-CNN and traditional ML algorithms (Random Forest, SVM) using Python, TensorFlow, and Scikit-learn.
- Applied data preprocessing, feature engineering, and scaling techniques to improve model performance on a small dataset.
- Designed a health recommendation model based on glycemic index/load and nutritional factors to suggest consumption suitability.
- Integrated the ML models with a backend API and IoT-based sensor system (ESP32) for real-time prediction and mobile app interaction.

AI-Assisted Travel Web Application with Chatbot (02/2026)

- AI tools such as Lovable.dev and xetelai.com were used to accelerate website design, layout refinement, and chatbot configuration.

Diabetes Risk Prediction (06/2025 - 08/2025)

- Developed a machine learning model to classify diabetes and non-diabetes cases based on lifestyle factors using Python in Google Colab

Fungi Colony Detection (10/2024 - 12/2024)

- Developed a machine learning model to detect and classify fungi colonies from image datasets using python in Anaconda

WORKING EXPERIENCES

Customer Service Trainee Bank of Ceylon

01/2022 - 07/2022

- **Customer service in the front office**
- **Back office operations.**

SKILLS

- Programming Language: C,C++,Python, JavaScript ,OOP
 - Web Development: HTML,CSS,UI design, Full stack development
 - Software Development: QT Creator, Text Editor design
 - Tools & Frameworks: QT Framework, Anaconda, Pycharm, Postman, MySQL,Google Colab
 - General IT Skills: Problem-solving, Debugging, Technical Documentation
-

ORGANIZATION

IEEE Student Branch Rajarata University of Sri Lanka (2025-Present)

Member

ARICT Club, Rajarata University of Sri Lanka 2023-Present

Member

INTERESTS

- Artificial Intelligence
- Machine Learning
- Data Science
